FORDSON MAJOR

- YEAR: 1948
- MODEL: E27N Steel Wheeled
- COUNTRY: England
- ENGINE: 27HP Kero (Petrol Start)
- ITEM NUMBER: 191
- DONATED BY: Mr Vern Witney (Original Owner B. Lyons. Cadoux.)

The Fordson E27N Major was an upgrade to the Fordson N, and made in England from March 1945, having the same engine and transmission as the Model N, but in a new casting which allowed for a PTO and a hydraulic lift unit manufactured by either Smiths or Varley. The differential however was of completely new design.

For the first time Fordson owners could purchase a tractor from the dealer fully equipped with 3PL, PTO, full electrics and an adjustable-width front axle, allowing the tractor to work row-crops.
